

Peoples Community Bank Internet Privacy Policy

We understand how important it is to keep your personal information confidential. The following privacy policy outlines what information we collect through our website, how we deal with it, and what we do to ensure it is secure.

Throughout this policy, we refer to your 'personal information' which means information which identifies you as an individual or from which your identity can be reasonably ascertained. Your address is an example of personal information.

The personal information we collect through this website usually comes from any comments or messages you submit to us. We automatically collect and record this information with our server logs from your browser. Generally, we obtain your IP address, cookie information and the page you requested.

This Internet Privacy Policy does not substitute the Peoples Community Bank general Privacy Policy.

Security: We have numerous security systems in place and our aim is to protect the security and integrity of your personal information. Once we get possession of any personal information, we take reasonable steps to protect that information from misuse and loss and from unauthorized access, modification or disclosure.

Unfortunately, when it comes to the internet, nothing is guaranteed to be entirely safe. So although we make every effort to protect your personal information, you need to be careful because anything can happen.

Cookies: These days, it is not uncommon for sites to use "cookies" to identify and learn about site visitors. Cookies are miniature identifiers that work as a license plate because they help us to identify you if you visit our site again. These identifiers are sent from a web server and are stored on your computer's hard drive. We may set and access cookies on your computer because they help us to see how you found our website. Under no circumstances would we ever use them to get data from your hard drive, your email or any other personal information about you.

To ensure your privacy is secure, we do not use cookies to pass on or store any personally identifiable information about you online. You have the option of rejecting cookies by changing your browser settings but this can cause some web pages not to load properly and can result in denied access to certain information.

Links: Many websites these days contain links to external sites. Our site has links to the websites of other organizations which we believe could potentially be of interest to you.

We are not responsible for the content or practices of these linked sites. They are separate businesses and they have their own privacy practices which are not identical to ours. If you want to find out more about them, check those websites for their respective privacy statements.
